Mastering Challenges
Therapeutic Interventions in the Classroom

Airetta Myrick

Gives step by step direction of implementing counseling services to students while they are in their classrooms. The manual contains exercises which stimulate problem solving, self analysis, coping skills, and stress and anger management. The exercises are thought provoking, realistic, and sound enough like their own experiences that they enthusiastically engage in the counseling activity with their peers.

For workshops and additional book information contact:
Airetta Myrick, airettamyrick@yahoo.com
